

## View the ZSI Google Calendar on your native iPhone or iPad app

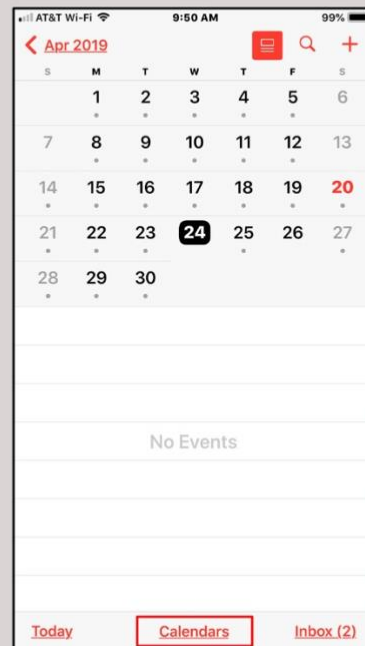

When you add the entire ZSI Google Calendar by clicking the “+Google Calendar” button (as described at the bottom of the [zchoirs.com Calendar page](#)), you’ll be able to view the ZSI Calendar on your desktop or Google Calendar app. In order to view it on the Calendar app that comes with you iPhone or iPad, you’ll need to complete the following steps:

1. On your iPhone or iPad launch Safari or another web browser.
2. Go to <https://calendar.google.com/calendar/syncselect> (if typing the link, you don’t need to type the https://)
3. Sign in to your Google account (this step might not be necessary if you’re already signed in)

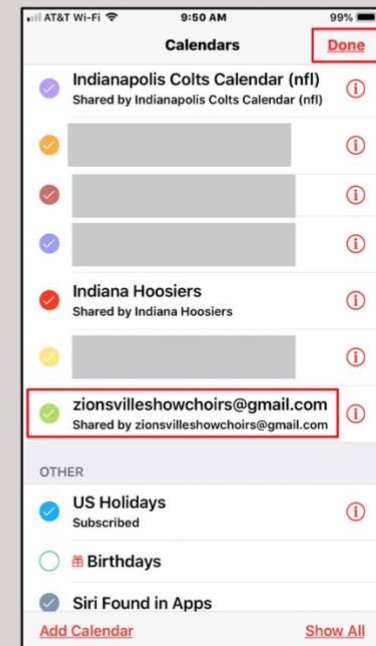

4. Go to the “Shared Calendars” section, and check the box for “zionsvilleshowchoirs@gmail.com”
5. Click “Save” on the bottom right

6. Reopen your calendar app, click the “Calendars” link at the bottom

7. Make sure zionsvilleshowchoirs@gmail.com is checked.
8. Click “Done” on the upper right
9. It may take a few minutes to sync

Too much show choir on your calendar? Toggle it on or off by checking / unchecking the calendar in step 7 above
